

Health and Safety Policy – Short Statement

All organisations are required to have a health and safety policy which adheres to the 1974 Health and Safety Act. We recommend that centres seek individual legal advice to ensure that their health and safety policy meets the specific needs of their organisation.

The centre confirms that they:

- Have in place, and be available for inspection purposes, a Health and Safety policy which adheres to the 1974 Health and Safety Act.
- This can be located on Global Educ8tions Intranet

The centre's Health and Safety policy would need to be available for inspection should ASDAN/Global Educ8tions audit the centre.
